#### NOT PAYING TAXES.

The Austin Reveille says:

The county is likely to have trouble with the Central Pacific Endroad in collecting the taxes which have become delinquent, as it has refused to pay the amount accessed and compromised by the Board of County Commissioners. The present taxes of the railroad amount to \$18,707 70, a good sized sum, which they have allowed to go delinquent and bave tendered \$15 808 20. They make a kick about assessing lands which they designate as unpatented. Ryan, their tax attorney, was here, and secured a good raduction, leaving, seen ingly well satisfied with the edjustment, but the outcome results in another kick, another resort to running a bluff. Our District Attorney should get down to business and bring suit, thereby making the radroad aweat and pungle an additional 40 per cent. of the entire taxes, for requiring a suit to obtain its payment. We should think the Central Pacific had paid ere this date, enough blood money, and got its fill in trifling with Lander Coumy, after Harry Creswell, as District Attorney, made a big inroad into this corporation's cash box.

### ASNEXATION.

The Truckee Republican remarks:

The Reno Gazette made use of the expression a few days ago that that portion of California east of the Summit, geographically and politically belonged to the Sinte of Nevada. Two years ago the Ropublican expressed itself in favor of that portion of the State of Nevada We have no cause to change the opinion when expressed We believe that if the proposition was to be voted upon by the people in the territory to be aftected the result would be in favor of anuezation.

Yet we hardly know bow the change can be brought about. It might require a constitutional amendment. But the proposition should first come from the State of Nevada. It should first signify its desire acquiring the territory and its Legislature should ask the gift from the Legislature of California Both Legislatures will noon be in session and will be the time to start the movement.

Nevada has asked California to cede the territory indicated, but California has repeatedly refused, and without the Golden State is willing to cede to Nevada there is no chance to secure it. Every consideration is in favor of the change. It would not particularly hurt California and would be the making of Nevada. The people in the proposed section would like the change, and great, big, golden California ought to make the S.Iver State a Christmas present of it.

#### IMPORTANT OFFICES.

Two Places to Be Filled by Pacific Coast Men.

WARRINGTON, December 2 .- There are two high political offices that will soon fall to the Pavific coast One, a cabinet place, will be given withto few mouths. The other, an A-sociat Justiceship of the United States Supreme Court, will be given within a few years at the furthest. Justice Field has begun his twenty-sevent year on the beach. He might have retired on full pay two years ago. H may retire now at any time. It i probable that one of these offices wil go to California and the other to Oregon. Thus fact will have its influence upon at least one man on the Pie fic Coast. It is thought here that Californi, will certainly get the Cibinet place, although there are four or five candidates in Oregon. It has been said that Senator Dulph would accept a place in the Cabinet. This is not correct. H. prefera the Senate, and is a candidat for re-election to the office he now holds. The Oregonians now here think that California will get the Cab met app animent, and they hope, late', to get the associate justiceship when tant is v.cant.

Harrisin has talked quite freely with Allison as i Spooner about the composition of his Cabinet, and to both he has said he would take some one from the Pacific coast. The only danger there is that the coast may forfeit th appointment is that the friends of the various candid tes may indulge in such detraction of rival candidates that Harrison can take no one. The nature of the office is such that the candidater cannot make a fight for it, as might be made for a foreign mission or the collectorship of a port. Kunfing and detraction will not help the candidates whose friends resort to it

Concluding their report, the Government Directors say, so far as they have been able to ascertain, the Union Paoific has been in the past year managed with fidelity and intelligence. Everything has been done that could reasonably be expected to keep the road in the line of improvement and satisfy the just requirements of the Government

An official canvass of the vote cast at the recent election in California for Justice of the Supreme Court was completed Tuesday, and shows that Beatty (Rep.), for Chief Justice, has a plurality of 4,618, and Works (Rep.), for Associate Justice, has a plurility of 503.

Califordia is fixing up a suite of exhibition cars to go on a four-months' cruise among the States beyond the Mississippi.
The latest dodge of the Reno people is to go along with this exhibit. It is said they have secured and remodeled a freight car, placed an exhibit on board, and are now on the sly lying in wait with it somewhere near the depot.
When the California cars come through they will hitch on behind and go along the East. For this purpose they have prepared sized grappling irons that can neither be information of exhibition in the call of the East. The Law toncerning Games of Chance. 贸 選

Washoe county, at the last election, had a voting population of over 1,500.

This makes it incumbent on the gambling fraternity to move up-stairs, and upon the officials to issue no license to carry on games on the first floor. It the Gaming Act is complied with, blank licenses are prepared by the County Auditor, and each license issued by turn Sheriff contains a particular description of the room in which the licenses desired as a carrying on the game licensed Every applicant for a license is required to give to the Sheriff a definite description of the room of the sheriff a definite description of the room of the sheriff a definite description of the room in which the license is required to give to the Sheriff a definite description of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room of the room of the room in which the license details a license is required to give to the Sheriff a definite description of the room description of the room in which he de--igns to carry on his game, and is also required to file a copy of such description with the County Clerk.

It is very proper that the officers of the law and each applicant for a gamin, license should comply with these requirements, and that no license should issue for any game unless the provisions of the law are complied with. The Legislature having by its acts recog uized gambling, has put it on a certain business basis, and when carried on according to law, the rights extended should be respected by all good citizens While thus much is said for those wh carry on gaming, there is a recipioca obligation which they should respect When the law says that the games must be removed to certain localities it should is observed. By observing it the maingers or proprietors of games can be said to respect the law rather than to et it at defiance.

To avoid trouble and feeling, that will necessarity arise by resorting to Courts, all games should seek their egitimate quarters and stay there. There are but few States that are so theral to the sporting fraternity as No ads, and should they desire that liberdity to continue, they will let their act show their deference to existing circum

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and I heatre giving directions and doing business with a big car-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deainess.
